

Vivek Vats

DATA ANALYST | SOFTWARE DEVELOPER | CSE STUDENT

vivekvats2875@gmail.com | linkedin.com/in/vivek-vats-43a29628a | github.com/vivek2875

PROFESSIONAL SUMMARY

Final-year Computer Science Engineering student with project-based exposure to market analysis, data analytics, software development, financial advisory, and client-facing work. Brings structured problem solving, clear communication, and a practical business lens to data-driven decisions.

DATA AND ANALYTICS SKILLS

Python, SQL, Power BI, Excel, Pandas, exploratory data analysis, data visualization, scenario-based modeling, C++, Git, GitHub, Jupyter, Google Colab

SELECTED PROJECTS

Oncology Patient-Pool & Market Opportunity Forecast

Structured a healthcare market-analysis project around oncology patient pools and market opportunity questions to support evidence-based planning.

FarmEasy Mandi Price & Supply Intelligence

Explored mandi market data to organize price and supply insights for clearer agricultural market decision-making.

EXPERIENCE

Relationship Executive Intern

Jan 2026 - Feb 2026

Mint Enterprises Private Limited

- Assessed client requirements and communicated suitable global equity fund and real-estate options in a clear, structured manner.
- Supported financial-product queries, documentation, follow-ups, and organised client records to strengthen relationship continuity.

Frontend Web Developer Intern

Feb 2026 - Jul 2026

Ziion Technology, Mohali

- Built responsive interfaces and REST API integrations while collaborating with backend developers on testing, debugging, and usability.

EDUCATION

B.Tech in Computer Science & Engineering - Punjab Engineering College

Final-year student
